Percentage of Unplanned Re-attendances		Total time spent in A&E department																					
 <p>% of Unplanned Re-attendances</p> <p>Rate</p> <p>10% 5% 0%</p> <p>May-17 Jun-17 Jul-17 Aug-17 Sep-17 Oct-17 Nov-17 Dec-17 Jan-18 Feb-18 Mar-18 Apr-18</p> <p>— % of Unplanned Re-attendances — 95th Percentile over last 25 Months of available data — Standard — % of Unplanned Re-attendances (NHS England)</p>	<p>Description of Data</p> <p>The unplanned re attendance rate for April 2018 was 0.24%; the highest we have reported in the last 25 months was 0.44% for March 2017. The rate for this month remains within the 5% standard. The benchmarking is extracted from the A&E HES Data</p>	 <p>Admitted & Non Admitted - Longest Time Recorded</p> <p>Rate</p> <p>23:45 21:21 18:57 16:33 14:09 11:45 09:21 06:57 04:33 02:09</p> <p>May-17 Jun-17 Jul-17 Aug-17 Sep-17 Oct-17 Nov-17 Dec-17 Jan-18 Feb-18 Mar-18 Apr-18</p> <p>— Admitted & Non Admitted, Longest Time Recorded — 95th Percentile over last 25 Months of available data — Standard — 95th Percentile Admitted & Non Admitted, Total Time in A&E (NHS England)</p>	<p>Description of Data</p> <p>The longest time recorded in A&E for all patients for April 2018 was 15:01 Hours, the highest we have reported in the last 25 months was 22:26 Hours for December 2016. The longest time recorded was below the standard of 04:00 Hours. The longest wait Benchmarking is particularly sensitive to poor data quality and definitional issues, which is why some unusually high values may be observed, therefore no benchmarking has been used.</p>	 <p>Admitted & Non Admitted - Longest Time Recorded 95th Percentile</p> <p>Rate</p> <p>10:48 09:36 08:24 07:12 06:00 04:48 03:36 02:24 01:12 00:00</p> <p>May-17 Jun-17 Jul-17 Aug-17 Sep-17 Oct-17 Nov-17 Dec-17 Jan-18 Feb-18 Mar-18 Apr-18</p> <p>— 95th percentile Admitted & Non Admitted, Total Time in A&E — 95th Percentile over last 25 Months of available data — Standard — 95th percentile Admitted & Non Admitted Total Time in A&E (NHS England)</p>	<p>Description of Data</p> <p>The Longest time recorded (95th Percentile) in A&E for all patients for April 2018 was 05:25 Hours; the highest we have reported in the last 25 months was January 2017 at 07:42 Hours. The benchmarking is extracted from the A&E HES Data</p>																		
<p>The unplanned re-attendance rate for April 2018 was 0.24% which shows improvement (0.10%) compared with March 2018. The Trust remains consistently within the 5% standard.</p>	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 50%; text-align: center;">0.24%</td> <td style="width: 50%; text-align: center;">Rate This Month</td> </tr> <tr> <td style="text-align: center;">Better</td> <td style="text-align: center;">Compared to last Month</td> </tr> <tr> <td style="background-color: #90EE90;"></td> <td style="text-align: center;">Data Quality</td> </tr> </table>	0.24%	Rate This Month	Better	Compared to last Month		Data Quality	<p>In April 2018 the longest time recorded in A&E was 15.01 hours. The patient arrived by 999 ambulance called by the patients GP with a presenting complaint of "Falls". On arrival the patient was triaged and a full set of observations were performed and investigative bloods requested. The patient was seen by A&E Doctor and further investigations including ECG was done. The patient required monitoring and assessment by A&E Doctor, Social Team and the Trusts rapid assessment and therapy service (RAPT's) The patient was transferred to a hospital bed for comfort and later admitted to the Clinical Decision Unit (CDU) for further monitoring, review by A&E Doctor, and decision to admit or discharge made. Following review the patient was referred to the medical team and transferred to the Ward.</p>	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 50%; text-align: center;">15:01</td> <td style="width: 50%; text-align: center;">Rate This Month</td> </tr> <tr> <td style="text-align: center;">Better</td> <td style="text-align: center;">Compared to last Month</td> </tr> <tr> <td style="background-color: #90EE90;"></td> <td style="text-align: center;">Data Quality</td> </tr> </table>	15:01	Rate This Month	Better	Compared to last Month		Data Quality	<p>The time waiting in A&E (95th Percentile) for both admitted and non-admitted patients in April 2018 rose slightly, it was 05.25 hrs, an increase of 0.24 hrs compared to March 2018 which was 5.01 hrs (95th Percentile) All care groups work closely to reduce the time it takes for all our patients to be seen/treated/discharged or admitted following A&E attendance. Operational meetings continue to be held four times each day to look at any blockages, discharges and review bed capacity.</p>	<table border="1" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 50%; text-align: center;">05:25</td> <td style="width: 50%; text-align: center;">Rate This Month</td> </tr> <tr> <td style="text-align: center;">Worse</td> <td style="text-align: center;">Compared to last Month</td> </tr> <tr> <td style="background-color: #FFD700;"></td> <td style="text-align: center;">Data Quality</td> </tr> </table>	05:25	Rate This Month	Worse	Compared to last Month		Data Quality
