

Safeguarding Patient Records held Separately from Medical Records Libraries and in Transit Policy

This procedural document supersedes: Policy for Safeguarding Patient Records Held Separately from Medical Records Libraries and in Transit - CORP/REC 2 v.5

This policy should be used in conjunction with:

- CORP/REC 1 – Order of Filing in Hospital Casenotes Policy
- CORP/REC 3 - Processing Requests for Access to Health Records Procedure
- CORP/REC 5 - Clinical Records Policy
- CORP/ICT 7 - Data Protection policy
- CORP/ICT 8 - Safe Haven Guidelines
- CORP/ICT 10 - Confidentiality Code of Conduct

Did you print this document yourself?

The Trust discourages the retention of hard copies of policies and can only guarantee that the policy on the Trust website is the most up-to-date version. **If, for exceptional reasons, you need to print a policy off, it is only valid for 24 hours.**

1 INTRODUCTION

This policy clarifies responsibility for safeguarding patient records held separately from medical records libraries and while in transit.

This policy relates to any patient health record containing information which has been created or gathered as a result of any work of an NHS employee.

The purpose of this policy is to ensure the safety and confidentiality of patient records while they remain outside of Medical Records libraries or in transit.

In cross trust networking situations, Trust casenotes may be necessary on a non trust site. Before removing casenotes from the Trust the responsible staff member must ensure that they have been tracked to the receiving hospital. The casenotes must be tracked to an identified person who will accept responsibility for locating, retrieving and returning the casenotes if they are required. A contact telephone number must be recorded.

In accordance with current data protection legislation

Please seek advice from Medical Records on releasing casenotes outside of the Trust.

2 EQUALITY IMPACT ASSESSMENT

An Equality Impact Assessment (EIA) has been conducted on this procedural document in line with the principles of the Equality Analysis Policy (CORP/EMP 27) and the Fair Treatment For All Policy (CORP/EMP 4).

The purpose of the EIA is to minimise and if possible remove any disproportionate impact on employees on the grounds of race, sex, disability, age, sexual orientation or religious belief. No detriment was identified. (See Appendix 2).

3 DUTIES AND RESPONSIBILITIES

All staff who handle patient records should also be familiar with the Trusts Data Protection policy (Ref: **CORP/ICT 7**), Safe Haven Guidelines (Ref: **CORP/ICT 8**), Confidentiality Code of Conduct (Ref: **CORP/ICT 10**) and Clinical Records Policy (Ref: **CORP/REC 5**).

4 PATIENT RECORDS HELD SEPARATELY FROM MEDICAL RECORDS LIBRARIES

- All patient records held outside of the medical records libraries, must be tracked, secure and accessible.
- When any office or department is left unattended, doors and windows must be locked, unauthorised persons should not have access to the patient records.
- Only patient records required for current use should be retained within an area.

5 PATIENT RECORDS IN TRANSIT

- Patient records returned to medical records libraries must be tracked on the iFIT system to the relevant in transit code, by the person returning the records.

In Transit Codes

BFILE - In transit to file - Bassetlaw medical records department

DGFILE - In transit to file - DRI General records department

DOFILE - In transit to file - DRI Orthopaedic/Fracture records department

DAFILE - In transit to file - DRI Antenatal records department

PFILE - In transit to file - DRI Maternity records department (Post Natal records)

MFILE - In transit to file - Montagu records department

- Medical records library will file (track) casenotes using location based filing into the receiving library.
- Individual patient records transferring between wards and departments and between hospital sites must be transferred via the following methods
 - Sealed transit bag
 - Sealed plain brown envelope

and must be clearly marked with the intended destination. Internal transit envelopes must not be used for transferring patient records.

- Larger quantities of patient records (e.g. destined for outpatient clinics) must be transferred in transit/tote boxes. Each box must have a lid attached, fastened with a security tag; boxes must not be overfilled so that the lid will not fasten. Each box must have the destination clearly marked.
- Transit boxes and envelopes containing patient records must not be left unattended in public areas.

- Patient records that are transferred around Trust hospitals or between Trust sites by the service department or by hospital transport must conform to the above guidelines.
 - all boxes must have a secured lid and the destination clearly marked
 - the doors of all transport used for the transfer of patient records must be secure whilst carrying boxes
 - patient records must spend the minimum amount of time in transport and should be delivered to their intended destination at the earliest opportunity.
 - patient records must never be left on hospital transport overnight.
- Patient records travelling by passenger shuttle must also clearly addressed and travel in a secure plain envelope or sealed tote box. The records must be hand delivered to the driver and collected from the driver by the recipient on arrival.
- Only patient records that are needed for outreach or satellite clinics should be taken to off site destinations
- Copied or original records required by other hospitals, solicitors, patients etc, must be sent in a secure manner. Staff must be aware of the Processing Requests for Access to Health Records Procedure (**CORP/REC 3**).
- Copied records despatched through the external postal system must be clearly addressed, double wrapped for added security and sent by registered post.

6 PATIENT RECORDS REQUIRED BY HOSPITALS OUTSIDE THIS TRUST

Original patient records should not normally leave the Trust.

Where practical, copy records will usually be released but in the event of an emergency transfer the original records should accompany the patient and the transfer recorded on the iFIT System. For non PAS users the medical records departments have a 24 hour bleep service Bleep 1850. The casenotes must be placed in a sealed plain brown envelope and handed to the team transferring the patient.

There is a tracker booking code 'OHOS' (other hospital other site) which should be used if the specific hospital tracking code is not known. The name of the receiving hospital must be recorded in the transfer comment field and, if known, the ward and consultant's name. A 'Return To' slip must be attached to the outside cover of the casenote folder (see Appendix 1).

7 RECORDS ACCOMPANYING PATIENTS TO HOSPITAL SITES WITHIN THE TRUST

Records for patients transferring between wards on any hospital site within the Trust must always accompany the patient, and be tracked to the next destination. Casenotes must be in a secure plain envelope, or a sealed tote box and be clearly addressed.

Healthcare staff must ensure that the clinical record, or a copy, always accompanies a patient who needs to transfer between hospitals within or outside this Trust.

8 MONITORING COMPLIANCE AND EFFECTIVENESS

What is being Monitored	Who will carry out the Monitoring	How often	How Reviewed/ Where Reported to
Casenotes that are held outside of medical record libraries are secure and accessible....	Medical Records	Ongoing Weekly tracking audit	Medical Records management team will address areas of concern with responsible individual

9 EDUCATION AND TRAINING

Members of staff who handle casenotes must follow this policy.

The training requirements of staff will be identified through a training needs analysis. Role specific education will be determined by the service lead.

10 ASSOCIATED TRUST PROCEDURAL DOCUMENTS

- CORP/REC 1 - Order of Filing in Hospital Casenotes Policy
- CORP/REC 3 - Processing Requests for Access to Health Records Procedure
- CORP/REC 5 - Clinical Records Policy
- CORP/ICT 7 - Data Protection Policy
- CORP/ICT 8 - Safe Haven Guidelines
- CORP/ICT 10 - Confidentiality Code of Conduct
- CORP/EMP 4 – Fair Treatment for All Policy
- CORP/EMP 27 – Equality Analysis Policy

APPENDIX 2 – EQUALITY IMPACT ASSESSMENT - PART 1 INITIAL SCREENING

Service/Function/Policy/Project/Strategy	Care Group/Executive Directorate & Department	Assessor (s)	New or Existing Service or Policy?	Date of Assessment
Safeguarding Patient Records held Separately from Medical Records Libraries and in Transit Policy	Performance	Judy Lane	Existing policy	09.03.2018
1) Who is responsible for this policy? Performance				
2) Describe the purpose of the service / function / policy / project/ strategy? To provide guidance on safeguarding patient casenotes				
3) Are there any associated objectives? Records Management Code Of Practice				
4) What factors contribute or detract from achieving intended outcomes? Non-compliance				
5) Does the policy have an impact in terms of age, race, disability, gender, gender reassignment, sexual orientation, marriage/civil partnership, maternity/pregnancy and religion/belief? No				
<ul style="list-style-type: none"> • If yes, please describe current or planned activities to address the impact 				
6) Is there any scope for new measures which would promote equality? No				
7) Are any of the following groups adversely affected by the policy? No				
Protected Characteristics	Affected?	Impact		
a) Age	No			
b) Disability	No			
c) Gender	No			
d) Gender Reassignment	No			
e) Marriage/Civil Partnership	No			
f) Maternity/Pregnancy	No			
g) Race	No			
h) Religion/Belief	No			
i) Sexual Orientation	No			
8) Provide the Equality Rating of the service / function /policy / project / strategy – tick (✓) outcome box				
Outcome 1 ✓	Outcome 2	Outcome 3	Outcome 4	
<i>*If you have rated the policy as having an outcome of 2, 3 or 4, it is necessary to carry out a detailed assessment and complete a Detailed Equality Analysis form in Appendix 4</i>				
Date for next review: March 2021				
Checked by: Emma Challans		Date: 09.03.2018
