

INFORMATION FOR PATIENTS LISTED FOR OPERATION

Your name has been placed on the surgical waiting list. This Trust is committed to offering you an admission date within 6 months.

If, while you are waiting, you have any concerns, you should contact either your General Practitioner or the Consultant's secretary.

Most patients are seen for a pre-operative assessment approximately one week before admission. You are required to confirm that the dates for pre-admission assessment **and** admission are suitable. Failure to confirm **both** dates will lose your admission opportunity.

On the day of admission, you may be required to ring the ward as a further check to ensure that there is a bed for you. All admission details will be given to you either at the pre-admission assessment or by post.

If you cannot accept either the pre-admission or admission date, please ring your Consultant's secretary as soon as possible.

Telephone numbers for Consultant's secretaries are as follows:
