## *Where are the Libraries at Doncaster and Bassetlaw?*

### *When are they open?*

The Library at DRI is situated in South Block, opposite the Education Centre

The Library at Bassetlaw is situated upstairs in The Hub

Opening Hours:

DRI: Monday–Friday, 9.00am-5.00pm

BAS: Monday-Friday, 8.30am-4.30pm

24/7 access available at both sites,  
you must be a registered library user

## *Is there space to study?*

Study space is available in both Libraries

In addition, at DRI, the Leisure Library offers recreational library facilities plus additional group study space and PCs in a more relaxed environment

## *Do you offer access to PCs and Wi-Fi?*

A number of PCs, printing & scanning facilities are available in the Library & Learning Resource Centre at DRI & Bassetlaw

To guarantee availability, you can pre-book

Wi-Fi is available in both libraries

***How many books may I borrow?***  
***How long may I keep them?***

8 (Students 4) - for 3 weeks

Renew items up to three times, provided  
no-one else has requested it

Renew online, email, telephone or in person

## *How do I access the books, journals and databases I need?*

Library catalogue <http://dab.nhslibraries.com> – stock held at DRI and Bassetlaw, you can also filter for eBooks available instantly on your PC or mobile device

Request and document supply service also available

NICE Evidence [www.evidence.nhs.uk](http://www.evidence.nhs.uk) – wide range of electronic resources

Need to use [OpenAthens](#) username and password

An [OpenAthens](#) account gives you access to resources purchased locally and regionally as well as those provided generally by the NHS. These resources will be available to you 24 hours a day either at work or at home

You can self-register or update your [OpenAthens](#) account via NICE Evidence or the Knowledge and Information Portal – ask in the library for help

***Take a look at our eBooks!***  
**Book you need not on the shelf?**

You now have access to over 300 eBooks, including 130 titles from the Oxford Handbooks and Oxford Textbooks series, plus many other popular titles

Books are available 24/7 from your PC, laptop or mobile device (with your Athens username and password)

Immediate access

For items not in stock, request a short loan from a database of more than 30,000 titles

The easiest way to access these eBooks is via the library's online catalogue:

|--|--|--|

**Overview and Recommendations**

**Background**

- Diabetes mellitus type 2 is a common endocrine disorder characterized by variable degrees of insulin resistance and deficiency, resulting hyperglycemia, and complications such as cardiovascular disease, neuropathy, nephropathy, retinopathy, and increased mortality.
- Type 2 diabetes is frequently asymptomatic, but may present with symptoms typical of hyperglycemia such as polyuria, polydipsia, and polyphagia.
- It is often identified through routine screening beginning in middle age, or through targeted screening of adults with risk factors such as obesity, metabolic syndrome, polycystic ovary syndrome, a history of gestational diabetes, or other concerning familial, clinical, or demographic characteristics.

**Evaluation**

- Perform blood testing to diagnose diabetes (Strong recommendation).
  - Diagnostic criteria for diabetes is any of:
    - fasting plasma glucose  $\geq 126$  mg/dL (7 mmol/L) (after no caloric intake for  $\geq 8$  hours)
    - symptoms of hyperglycemia with random plasma glucose  $\geq 200$  mg/dL (11.1 mmol/L)
    - 2-hour plasma glucose  $\geq 200$  mg/dL (11.1 mmol/L) during a 75 g oral glucose tolerance test
    - HbA1c  $\geq 6.5\%$  (HbA1c may not be accurate for diagnosis if there is pregnancy, hemoglobinopathy, certain anemias, or abnormal erythrocyte loss or replacement)
  - Repeat testing for confirmation in absence of unequivocal hyperglycemia.

***We can help you use all of these resources!***

### **e-Resources Training**

- Don't know where to start?
- Want to refresh your skills and knowledge?
- Need to find evidence to support professional or clinical practice
- Undertake an audit?

**We can help!**

- One to one, or in groups
- In the library or other convenient location
- Tailored to your needs

## ***Do you offer a Literature Searching Service?***

If you are looking for the latest guidelines, or evidence to support research, treatment, policies, or an audit for clinical, commissioning or business needs –  
**we can save you valuable time**

- We offer an evidence search service tailored to your needs
  - Results/information back to you within 10 working days

And we can train you to search effectively for evidence yourself!

## *Critical Appraisal*

Our “**How to read a paper**” introductory workshop will help you to:

Clarify where critical appraisal fits into evidence based practice

Understand the key terminology, including interpreting forest plots

Use a checklist to critically appraise quantitative research

Confidently participate in a journal club

*“...I will now have more confidence in my skills in appraising papers”*

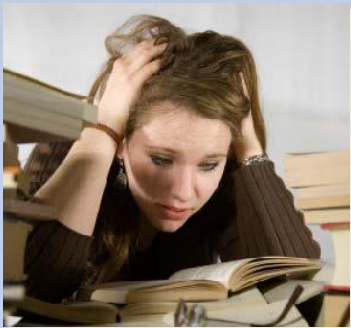

*“...I enjoyed it more than I thought I would”...*

***For your Training and Literature Searching needs

**About us**

Doncaster & Bassetlaw Knowledge, Library & Information Services comprises of the Library & Learning Resource Centre at Doncaster Royal Infirmary and the Library & Learning Resource Centre at Bassetlaw Hospital. Together we exist to aid the process of education, training and continuing professional development. Services also help to facilitate access to the evidence base to support the process of clinical governance.

For further information contact:  
Library & Learning Resource Centre, Bassetlaw Hospital - [bas.library@dbh.nhs.uk](mailto:bas.library@dbh.nhs.uk)  
or  
Library & Learning Resource Centre, Doncaster Royal Infirmary - [dri.library@dbh.nhs.uk](mailto:dri.library@dbh.nhs.uk)  
or  
visit the intranet (DBHFT staff only) at:

**Current Awareness Services**

KLIS provides several Current Awareness Services that staff at Doncaster & Bassetlaw Hospitals NHS Foundation Trust can subscribe to. Other NHS staff based in Doncaster may also request to subscribe to them:

Daily Health Bulletin:  
Produced daily for the NHS in England by NHS Yorkshire and Humber Commissioning Support Unit for distribution by NHS Knowledge & Library Services, this short bulletin in an e-mail can be e-mailed to you direct.

If you would like to subscribe to this bulletin please e-mail [dri.library@dbh.nhs.uk](mailto:dri.library@dbh.nhs.uk) using 'Request Daily Bulletin' in the subject box. If you would like to see a sample copy this can also be arranged.

KLIS New Books List - produced monthly.  
To subscribe, please contact [ruth.woodcock@dbh.nhs.uk](mailto:ruth.woodcock@dbh.nhs.uk)

**Notice: Internet Explorer viewing problems**

There are currently problems viewing this Netvibes site in older versions of Internet Explorer. We recommend that you either upgrade your version of Internet Explorer (if viewing on your own device) or view the site in another browser, e.g. Google Chrome, Firefox or Safari.

**Trust Publications Register**

The Knowledge & Library Service maintains a Publications Register of published articles, books and chapters written by Trust staff.

You can access the Publications Register by going to <http://dab.nhslibraries.com>

Enter the catalogue and from the main search page follow the Publications Register link in the news section. From here you can access a searchable database of publications - options include searching by author or by Care Group/Corporate Directorate.

The entries are being updated monthly - if you have published something we may have missed please e-mail the details to [publications@dbh.nhs.uk](mailto:publications@dbh.nhs.uk) so that it can be followed up.

In addition, items that are indexed in publications that appear in Medline on PubMed appear in the RSS feed above as they are made available.
