

## Postgraduate Doctor Toolkit

Essential resources from BMJ to support postgraduate doctors during their inductions and rotations.

Nationally funded, free to all NHS healthcare staff and learners in England.

This is an interactive PDF, click on the blue boxes below to visit the resource relevant to you.

### BMJ Best Practice

Anytime access to the latest, evidence-based research and information to support your clinical decisions.

- Condition and Symptom Topics**  
Browse the latest medical content in over 30 specialties to help you make evidence-based clinical decisions.
- Medical Calculators**  
Browse and search over 250 evidence-based medical calculators.
- Patient Leaflets**  
Patient leaflets provide concise easy to read summaries to reassure patients and carers and help them make informed, shared decisions with healthcare professionals.
- Procedural Videos**  
Watch videos on common clinical procedures including equipment, complications, indications, contraindications and aftercare.
- Case Reports**  
Search or browse case reports on rare diseases and unusual presentation of more common diseases.
- Comorbidities Manager**  
The Comorbidities Manager supports the management of the whole patient by providing guidance on the treatment of acute conditions alongside pre-existing comorbidities.

### The BMJ

Read the latest articles from *The BMJ* for medical news, opinions, research, education, campaigns and more.

### BMJ Talk Medicine Podcasts

The latest podcasts from *The BMJ* and specialist journals.

**Sharp Scratch**  
In this podcast series, medical students, newly qualified doctors, *The BMJ's* multimedia team, and experts from around the world get to grips with the topics that really matter but medical schools don't teach you. Brought to you by BMJ Student.

“BMJ Best Practice doesn't just provide insight and knowledge, but also helps to build your confidence.”

**Dr Amil Mair, Postgraduate Doctor**
