**DBTH Knowledge & Library Service**

# Library skills training sessions overview

**2020/21**

**39** training sessions attended by **171** staff

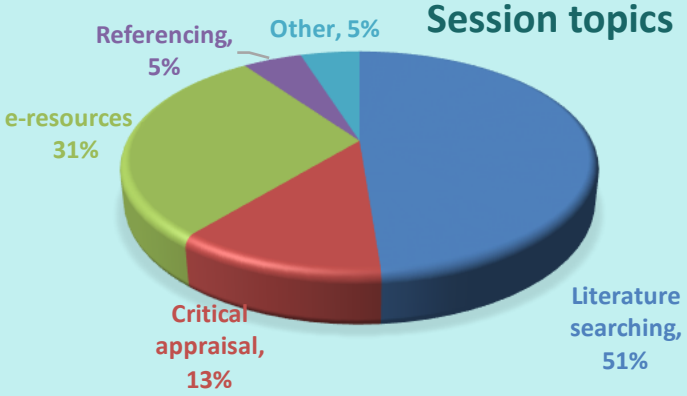

*"I used the skills that Dave taught me to do the literature search for my dissertation (MSc in Advanced Clinical Practice) for which I have just received a distinction "*

**100%** of course attendees rated our courses as Good or Excellent (**79%** rated our training as excellent)

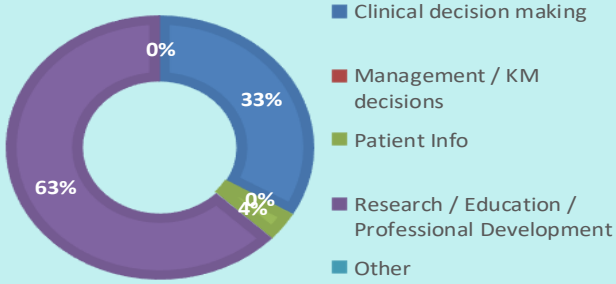

**79%** of library skills training attendees were doctors, **8%** allied health professionals and **5% nurses** & midwives

**100%** of attendees said they passed on advice to their colleagues. **43%** said they used the skills they learnt for service development

## Session topics

## Reasons for training

## After attending, I will…

*"be able to conduct a search on my own, meaning that I can progress with projects for myself and the team I work within."*

*"have a more in depth understanding of the quality of evidence and how to use this within practice more effectively"*

## Our trainees told us:

*"Very useful for FRCEM critical appraisal exam"*

*"Discussion session in small group helped us to present our views equally"*

*"I now have realised how important it is to inculcate the skills of doing proper literature search for a successful quality improvement project."*
