

Doncaster & Bassetlaw Medicines Formulary

Section 4.2: Drugs used in psychoses and related disorders

Haloperidol 500microgram Capsules

Haloperidol 1.5mg and 5mg Tablets

Haloperidol 5mg in 1ml Injection

Approved by Drug and Therapeutics Committee: December 2018

Review Date: December 2021

Prescribing Guidance:

Haloperidol is used for indications other than psychosis within Doncaster and Bassetlaw Hospitals. Nausea and vomiting in palliative care (see [Palliative Care Formulary](#)) and delirium are the main indications.

See also [RDASH formulary guidance](#) for schizophrenia.

See also [RDASH formulary guidance](#) for bipolar disorder.
