## Re: Your request made under the Freedom of Information Act 2000

---

Re: Osteoporosis Guidelines

I am currently conducting a study on the use of national and local guidelines for the treatment of Osteoporosis. Please could you tell me what if any guidelines your organisation follows for the treatment of Osteoporosis. If a local guideline is in place, please could I request a copy or a link if it is available on your website?

**We do not have any specific guidance. However, there is a link within the policy (PAT/PS11) to the FRAX assessment tool.**
