Re: Your request made under the Freedom of Information Act 2000

I am writing to enquire if your organisation has any local guidelines for the treatment of psoriasis and/or psoriatic arthritis using biologic drugs. If such guidelines exist, please could I request a copy.

Many thanks for your help,

We are aware there are ongoing discussions at ICS level regarding a biologic's pathway. However, nothing has been heard further since they first made contact near the end of 2019.
