Re: Your request made under the Freedom of Information Act 2000

I work as a research fellow at Croydon University Hospital. I am doing an MD with Miss Raneer Thakar and Mr Sultan at St George's University looking at education of doctors and midwives regarding Obstetric Anal Sphincter Injuries. I have designed a survey in collaboration with a team in the USA to send to all obstetricians and midwives asking about knowledge and training in OASI. I am putting together a list of consultants working in obstetrics and gynaecology in the UK.

Please can I have the names of the consultants who work in obstetrics and gynaecology at your hospital?

We are not prepared to disclose this level of information, as it is exempt from answering under s.40 (2) of the Freedom of Information Act (FOIA). The publication of any "sensitive personal information" is classified, as it could potentially reveal the identity of the individual.

However, you can contact the team via: dbth.obsgynaematrons@nhs.net
