As of 26 January 2021, 709 deaths have been reported with COVID-19 having played a role. Going through each to see if COVID-19 was the sole factor in death, and what other conditions were at play, would require a manual audit of patient notes and would therefore exceed the s.12 timescale of the FOIA 2000.

At Doncaster Royal Infirmary, we have cared for 2,187 patients with confirmed cases of COVID-19. At Bassetlaw Hospital this number was 457. Of these, 256 have received intensive care. We do not have data on care home patients.
