Re: Your request made under the Freedom of Information Act 2000

Please can you tell me how many cases of hospital-acquired Covid-19 the trust has had since 1st March 2020.

Please state the date the case was discovered, the name of the hospital and the ward/department where the patient was, the outcome for the patient (i.e. recovered, died), and whether any staff were also affected (if so, please state how many and the area of the hospital where they work).

Please also include any information that was shared with Public Health England on these cases.

As of 26 January, 262 patients out 2,720 have registered a positive COVID-19 test 14 days after admission (when they tested negative). While it is impossible to confirm definitely, these are treated as nosocomial infections.
