Re: Your request made under the Freedom of Information Act 2000

Dear Sir/Madam,

As part of a study looking at different treatment options across the UK, please may I enquire if your organisation has local treatment guidelines for the treatment of the following conditions.

- Axial spondyloarthritis
- Ankylosing spondylitis
- Rheumatoid arthritis

If you have such guidelines please could I request a copy.

We follow guidelines from NICE and the British Society for Rheumatology for the treatment of these conditions. These are readily available on the internet.
