

Re: Your request made under the Freedom of Information Act 2000

I wondered if you would be able to please supply the following information:

- 1) In the period 01/01/2018 - 31/12/2020 (3 full years), how many obstetric (Maternity) patients per year accessed PALS and what was the ethnic breakdown for those who accessed PALS.

We don't currently collect ethnicity of patient's on Datix. There are 137 obstetric patient who were in contact with PALS – split per year below:

There are 137 patients in the above chart and the only way to find Ethnicity would be to cross match with PAS manually, which would exceed the s.12 timescale of the FOIA 2000.

- 2) What was the total number and ethnic breakdown for obstetric (Maternity) patients accessing the hospital in general (inpatients and outpatients) in the same time period.

All years are based upon Calendar Years (1st January to 31st December).

During 2020, the Covid Pandemic started which lead to a reduction in admissions and Attendances throughout the Trust, therefore the numbers here for that year are lower than previous.

Inpatient Admissions to Treatment Function Code 501 (Obstetrics):

Ethnic Group	2018	2019	2020	Grand Total
