

**Re: Your request made under the Freedom of Information Act 2000**

I am writing for information pursuant to the Freedom of Information Act 2000. All questions pertain to the following dates: 01/12/2019 to 30/11/2021. I would like to know the following:

1.a) How many people have died in your hospitals **within 28 days of testing positive** for COVID-19?

889

1.b) Of those people, how many had underlying health conditions / co-morbidities and how many did not? Please provide absolute numbers and percentages.

*Exempt under section 12 as we do not have data for 'Comorbidities / underlying health conditions without more specific codes to specify which conditions are to be included which would exceed the reasonable limit of cost*

1.c) Please also state the top 5 underlying health conditions / co-morbidities of those people. **N/A as above**

1.d) Please state how many of those people were vaccinated and how many were not. Please provide absolute numbers and percentages. For vaccinated people, please break down the response in the following way: i) received one dose, ii) received two or more doses.

*We cannot answer this question as this is not data held within a hospital setting, most likely held on national systems or a GP based dataset, neither of which we have access to.*

2.a) How many people have died in your hospitals **purely and only due to** COVID-19?

502

2.b) Of those people, how many had underlying health conditions / co-morbidities and how many did not? Please provide absolute numbers and percentages.

*Exempt under section 12 as we do not have data for 'Comorbidities / underlying health conditions without more specific codes to specify which conditions are to be included which would exceed the reasonable limit of cost*

2.c) Please also state the top 5 underlying health conditions / co-morbidities of those people. **N/A as above**

Our Ref: 350/2021  
DECEMBER 2021

2.d) Please state how many of those people were vaccinated and how many were not. Please provide absolute numbers and percentages. For vaccinated people, please break down the response in the following way: i) received one dose, ii) received two or more doses.

*We cannot answer this question as this is not data held within a hospital setting, most likely held on national systems or a GP based dataset, neither of which we have access to.*

Please keep the numbers/figures/percentages/etc. provided in response to questions 2.a-d separate from the numbers/figures/percentages/etc. provided in response to questions 1.a-d. If that is not possible, please clearly indicate which numbers are combined.
