Re: Your request made under the Freedom of Information Act 2000

This is a follow-on from my freedom of information request numbered: 319-2021. I have a few questions in order to clarify the information given in your response which I would be grateful if you could answer. Please let me know if you would like to me to make another freedom of information request, rather than continue this one.

The questions are as follows:

1. What is the reasoning for no sexual contact being a contraindication for trans-vaginal ultrasounds?

Vaginal access with the probe is difficult if there has not been any previous sexual intercourse.

Kind regards

Anuska
