

Re: Your request made under the Freedom of Information Act 2000

Could you provide the number of Still births at your hospitals going back the last 10 years and the number of still births so far this year?

Please find attached a document which holds the number of stillbirths at the trust from 2016 to present.

We're not able to confirm the accuracy of the data prior to 2016 when we changed to CaMIS, as such only 7 full years' worth of data, and this year, up to today are included.

The Diagnosis Codes used are as follows:

- Z371 Single stillborn
- Z373 Twins, one liveborn and one stillborn
- Z374 Twins, both stillborn
- Z376 Other multiple births, some liveborn
- P95X Fetal death of unspecified cause
