JULY 2022

Re: Your request made under the Freedom of Information Act 2000

Please can I request (under the FOIA 2000):

Could you provide me a contact email address for the team or person who is responsible for Digital Transformation of Care ; that could include initiatives such Virtual Wards , Remote Monitoring, Hospital at Home, Community Diagnostic Hubs etc?

Lenus Health have implemented integrated digital services for COPD, Heart Failure and patients with dermatology conditions in Scotland, and we are now seeking additional collaboration sites in England to further co-create our services. We are looking for genuine partnerships with a small number of systems, providers and communities, with an approach that is committed to co-creation and collaboration on the further development of our systems that align to local providers and populations.

Please find our Trusts Structure Chart below with all the relevant contact emails for the Digital Transformation department included:
