Re: Your request made under the Freedom of Information Act 2000

Please can I request (under the FOIA 2000):

Do the Tier 3 weight management services that you run **offer** GLP1 agonists, such as liraglutide, as a management option for patients?

The Doncaster Tier 3 weight management service is currently unable to offer GLP1 agonists as there is not a prescriber available in the service.

The Bassetlaw Tier 3 weight management service is able to refer patients to the Department of Diabetes and Endocrinology for consideration of prescribing after the patient has accessed the service for four months if appropriate.

The differences between the two services are due to contracting/commissioning arrangements
