**Re: Your request made under the Freedom of Information Act 2000**

Please do provide all relevant information to the following questions, with both text and relevant links to documents.

Question	Response – text and/or links
When was your last networking (LAN, Core, edge) refresh, and when is the next refresh planned?  When was your last Wi-Fi refresh, and when is the next refresh planned?  When was your last telephony or Unified Communications refresh, and when is the next refresh planned?  When was your last mobile devices/pagers refresh, and when is the next refresh planned?  Can you confirm contract end dates and vendors for the above?	All refreshes are in progress for delivery over the next 1-2 years. Contracts for the services are expiring in November 2019 through to June 2023  Supplier and service details are excluded under the prevention or detection of crime (section 31(1)(a)).
Do you have an integration or workflow solution across the multiple technology systems in the trust?	yes

**Commented [HT1]:** @BONIFACE, Jerome Can you confirm if the details of networking supplier contracts can be disclosed?

**Commented [BT2R1]:** Refresh statement seems ok and also I can't see any issues in sharing the expiry dates. However, we don't need to share the supplier/product names that can create a security risk and is likely to prejudice the prevention or detection of crime (section 31(1)(a)).

<p>What are the key parts of your Digital Transformation and/or Hospital of the Future strategy going forward?</p>	<p>Please see the digital transformation strategy which outlines the key elements.</p> <p><a href="https://dbhweb.wpenginepowered.com/wp-content/uploads/2021/11/Digital-Transformation-Strategy.pdf">https://dbhweb.wpenginepowered.com/wp-content/uploads/2021/11/Digital-Transformation-Strategy.pdf</a></p>
<p>What adoption of Internet of Things has been implemented? Do you have an IOT containment policy?</p>	<p>A number of objects / object groups exist within local network infrastructure that could be considered under the IOT banner. Containment of such objects is a work in progress on a number of levels at this time, at the preparatory stage.</p>
<p>What adoption of asset tracking/real-time asset monitoring or RFID has been implemented or is being considered or planned? Does this include patient flow? Can you confirm contract dates and vendors?</p>	<p>Medical Records and some Medical equipment are tracked in real time.</p> <p>Contract Expiry 31/03/2027</p> <p>Supplier and service details are excluded under the prevention or detection of crime (section 31(1)(a)).</p>
