

## Re: Your request made under the Freedom of Information Act 2000

The data we require are as follows (for period 1st January 2022 and 31st December 2022) in an electronic format that allows us to read the data into a database. Many hospitals respond to our survey and provide data in the form we require. Preferably this format is in an excel file or comma separated text file.

### **Data required (for period between 1st January 2022 and 31st December 2022)**

- We require the gender of the patient (M or F), the date that they attended due to assault (dd/mm/yyyy) and their age. Age can either be numerical to the nearest year (preferred) or in age bands ("0-10", "11-17", "18-30", "31-50", "51+"), we can also accept date of birth.

All the patients shown below came into ED with a complaint of assault, I have then provided the assault cause for you to decided which you would like to see. Any figures below 5 could not be supplied.

	Appar ent assault (multiple assailants)	Apparent assault (single assailant)	Non-intentional injury	Self inflicted injury	Undetermine d / no information available	Unkn own	Grand Total

- *To calculate the level of assault-related injury in England and Wales we also require the total number of attendances for any reason in the year of interest, i.e., 2022.*

**Total Attendances 01/01/2022 to 31/12/2022: 195470**

- *Please also include the names of hospitals (including Minor Injury Units and Walk-in Centres) providing assault data.*

**Doncaster & Bassetlaw Teaching Hospitals NHS Foundation Trust (Include Montagu Hospital which is a Minor Injuries Unit.**

The Data Protection Act places restrictions on what data can be shared. It is the view of nearly 170 hospitals in England and Wales that the data we are requesting (age, date of attendance and gender) do not constitute personal information and that it is not realistic to expect that information to be used to discover an individual's identity.
