

## **Re: Your request made under the Freedom of Information Act 2000**

### **Thromboprophylaxis**

- 1. Does the Trust routinely meet the 95% VTE Risk Assessment level required by NHS England?**

Due to capacity within the Trust we are unable to provide a validated position and therefore we cannot provide a robust answer to this question. To obtain a robust validated position would mean exceeding the allocated hours and cost within section 12

- 2. Please provide the monthly percentage (admissions numbers/VTE risk assessments carried out) for VTE risk assessments carried across the Trust between 1<sup>st</sup> January 2022 – 31 December 2022.**

As above

- 3. Does the Trust have dedicated funding for a team ensuring VTE prevention occurs?**

The Trust does not currently have dedicated funding for a team to ensure VTE prevention occurs
