Re: Your request made under the Freedom of Information Act 2000

I am emailing you to make a freedom of information request with regard to trauma protocols for pregnant patients.

We would like to know the following information if available:

- Does your hospital/trust have a trauma protocol/guidelines for pregnant patients presenting in the Emergency Department with trauma?
- If yes, could you please attach it with your response to this email?
- Which specialties are called for a trauma call in pregnant patients in ED?
- Do you routinely call Obstetrics and Gynaecology and Paediatrics/Neonatology as part of this initial trauma call?

We do not have a particular pathway, as we don't have a particular pathway for Paeds, or elderly people.

In addition to activating the Trauma Team in such cases, as per gestational period Obstetric team along with paediatric/neonatal team are pre alerted as well.
