

Our Ref: 202/2023  
APRIL 2023

**Re: Your request made under the Freedom of Information Act 2000**

- Numbers of people who have been diagnosed with Fibromyalgia from 2019 to 2023;
- How much, in terms of waiting times, did it take to have a diagnosis of Fibromyalgia;

Please provide me with a breakdown per gender, year and regions.

**29 patients have been diagnosed with Fibromyalgia between the dates listed above using anyone with a primary diagnosis code of M797.**

To break this down by waiting times, gender, year and regions would make this number be below 5 for categories and therefore data would be suppressed.
