Workforce Disability Equality Standard – Data Collection Framework

Introduction

This data is being collected as part of the 2023 data collection for the Workforce Disability Equality Standard (WDES). The aim of WDES is to improve the working and career experiences of Disabled staff in the NHS. The WDES is mandated through the NHS Standard Contract and has been approved as a data collection by NHS England Data Alliance Partnership Board. It has also been subject to a data protection impact assessment.

The requirement to submit WDES data is outlined in clause 13.8 of the NHS Standard Contract 2022/23 Service Conditions, which state "The Provider (if it is an NHS trust or an NHS Foundation Trust) must implement and comply with the National Workforce Disability Equality Standard and submit an annual report to the Co-ordinating Commissioner on its compliance".

The Data Collection Framework (DCF) should be used to submit data for the WDES metrics (note the information on the tab for metrics 4 to 9a for NHS trusts). The survey tab contains a series of qualitative questions and should also be completed.

Guidance on how to complete the DCF has been produced and is available on NHS Futures via this link (Link:).

Navigation and Completion

Each section of the DCF can be accessed using the links near the top of the page. Please note:

- White boxes will collect the data. The grey boxes will be automatically filled when all the required information has been entered.
- Items marked with a red asterisk * are compulsory.
- Entries and changes are not saved automatically. At the foot of each section is a button labelled "Save as draft": this should be used as often as possible.
- Once all sections are complete, the "Submit" button can be pressed at the foot of any section.
- Each page may be saved as a PDF or printed using the standard process for your browser. (For example, in Chrome, pressing the three dots at the top-right of the screen brings up several options including Print.)
- Once the data has been submitted, an option will be given allowing a PDF version of the submission to be produced. You are strongly advised to do this and retain it for your records, and to aid in the completion of your 2023 Action Plan.
- Do not use the Back button on your browser: this will return you to the Open Collections screen, and any unsaved data will be lost.

Bank and Agency staff

Trusts should NOT include Band staff in the 2023 return, but do include Agency staff if they were also included in the 2022 return. Please use the Notes sections to indicate whether Agency staff have been included or not.

Deadlines

NHS trusts should submit their data between 1 May 2023 and by close of business on 31 May 2023.

The metrics data in this submission should be used to create a SMART action plan, in collaboration with Disabled staff. The action plan should be approved by the trust's Board, and published with the metrics data on the trust's website by 31/10/23. For comparison and benchmarking information on WDES metrics, see the Model Health System (Link:), the NHS Staff Survey (Link:) and the WDES 2021 report (Link:).

- iii. If a member of staff enters the capability process for reasons of **both** performance **and** ill health, they should not be included in the count of "ill health only" cases.
- iv. For clarification: the data required is the numbers of staff **entering** the capability process from 1 April 2021 to 31 March 2023, divided by 2.
