2c) The total number of TIA's with hypercalcaemia per year. For the 4 years 2019-2022 inclusive

Figures are too small to share as part of an FOI request

3a) The number of fatalities resulting directly from each of the above per year.

“It is also vitally important that we **won't** be able to provide information about 3a, as our inpatient coding is always for the main condition being treated/investigated while the patient is **alive**. Cause of death is not recorded by our work, that's the Office of National Statistics.” - from our clinical coding team.
