

Our Ref: 342/2023  
JULY 2023

**Re: Your request made under the Freedom of Information Act 2000**

How many midwifery red flag events did the Trust record in 2022?

In 2022 the trust reported a total of 596 red flags the data produced from birth rate plus.

31 were reported as red flags the remainder were reported within the red flag section under actions taken due to acuity.

Red flag data as per NICE majority of red flags / actions taken due to acuity were delay in Induction of Labour (IOL) from admission and after the IOL was commenced.
