Re: Your request made under the Freedom of Information Act 2000

Thank you for considering my freedom of information request. I'm seeking information on Alzheimer's disease testing.

For the last 12 months period, please could you provide:

The number of patients tested for Alzheimer's disease via lumbar puncture

The number of patients tested for Alzheimer's disease via PET scan

The number of patients tested for Alzheimer's disease via SPECT scan

The number of patients tested for Alzheimer's disease via MRI or CT scans

We would only be able to count the number of scans, and not be able to know which were tests for Alzheimer's disease, therefore we cannot answer this FOI
