Please provide endometrial ablation procedure numbers from Aug 2022-Aug 2023 or nearest dates available

- The number of endometrial ablations performed between 01/08/2022 and 31/08/2023 is **96**.
- If instead you only need the total to before the start of August 2023 (01/08/2022 to 31/07/2023), the total decreases to **91**.
