Re: Your request made under the Freedom of Information Act 2000

I am analysing the treatment of lung cancer and would greatly appreciate if you could answer the following questions:

Q1. How many Non-small cell lung cancer (NSCLC) patients were treated in the past 3 months with:

- ALK Inhibitors (Alectinib, Brigatinib, Ceritinib, Crizotinib, Lorlatinib)
- Amivantamab
- Atezolizumab Monotherapy
- Atezolizumab + Bevacizumab + Carboplatin + Paclitaxel
- Dabrafenib + Trametinib
- Docetaxel monotherapy or in combination with Carboplatin/Cisplatin
- Durvalumab
- Gemcitabine
- Nitedanib + Docetaxel
- Nivolumab
- Osimertinib
- Other EGFR Inhibitors (Afatinib, Erlotinib, Gefitinib, Dacomitinib, Mobocertinib)
- Paclitaxel
- Pembrolizumab Monotherapy
- Pembrolizumab + Paclitaxel + Platinum (Carboplatin/Cisplatin)
- Pembrolizumab + Pemetrexed + Platinum (Carboplatin/Cisplatin)
- Pemetrexed + Platinum (Carboplatin/Cisplatin)
- RET Inhibitors (Pralsetinib, Selpercatinib)
- Sotorasib
- Tepotinib
- Vinorelbine monotherapy or in combination with Carboplatin/Cisplatin
- Other active systemic anti-cancer therapy
- Palliative care only

Our pharmacy system doesn't store diagnosis data, so we're unable to determine this against the prescribed treatment. To ascertain this data, the Trust would need to perform an audit of each individual patient record, which wouldn't be achievable within the s.12 timescale of the Freedom of Information Act 2000.

Q2. Does your trust/health board participate in any clinical trials for non-small cell lung cancer (NSCLC)? If so, could you please provide the name of each active trial and the number of patients taking part.

NO
