Re: Your request made under the Freedom of Information Act 2000

I would like to know, over the last 12 months, in emergency departments in your trust (broken down by individual hospital if available/applicable, or across the whole trust if not):

- What percentage of mental health patients attending A&E who were sectioned spent more than 4 hours in A&E after being sectioned?
- On how many occasions, if any, did a patient wait more than 12 hours in A&E after being sectioned?

For the above 2 points we cannot provide any data we do not record anywhere formally in our ED system, as in a specific screen or question

For the years 2015-present (or, if data is not available to 2015, to the earliest available year before that year), I would like to know:

- Broken down by year, how many patients attended A&E with an emergency related to dental care in each year.

Total Dental Attendances	Year
485	2015
425	2016
368	2017
353	2018
431	2019
426	2020
452	2021
421	2022
301	2023
