

Our Ref: 89
JANUARY 2024

Re: Your request made under the Freedom of Information Act 2000

How many people have been on waiting lists for gynaecology treatment between 30 January 2021 and 30 January 2024?

How long is the average wait for treatment in gynaecology in this period?

If you could, please break the figures down by year and by the general type of treatment in Excel format.

Response:

The information requested is published (along with other Trusts) by NHS England on the following page: <https://www.england.nhs.uk/statistics/statistical-work-areas/rtt-waiting-times/>
Data is published monthly, and the latest data is December 2023.

In order to assist you we have summarised the information for our Trust as follows by year, broken down by whether the type of treatment was Non-Admitted (Outpatient) or Admitted (Inpatient):

Year	Type	Total Number of Clock Stops [Patients Treated from Waiting List]. Please note these patients would have all been on a waiting list at some stage, but not necessarily all at the same time. It does not include patients currently on the waiting list.	Average Weeks Wait for Treatment
2021	Admitted	916	19
2021	Non-Admitted	7746	6
2022	Admitted	1231	28
2022	Non-Admitted	7735	10
2023	Admitted	1403	26
2023	Non-Admitted	9263	14
