

Freedom of Information Act Request

Under the Freedom of Information Act, I would like to request the following information:

I have a freedom of information request regarding the treatment of melanoma. Could you please answer the following questions:

Q1. How many patients have been treated in the past 3 months with the following agents for melanoma (any stage) :

- Cobimetinib
- Dabrafenib
- Dabrafenib + Trametinib
- Dacarbazine
- Denosumab
- Encorafenib + Binimetinib
- Ipilimumab monotherapy
- Ipilimumab + Nivolumab
- Nivolumab monotherapy
- Nivolumab + Relatlimab
- Pembrolizumab
- Trametinib
- Vemurafenib
- Vemurafenib + Cobimetinib
- Other active systemic anti-cancer therapy
- Palliative care only

I am writing to confirm that DBTH holds the information on the subject you have requested. However, I advise you that we will not be able to answer your request without exceeding the appropriate limit. This is because our pharmacy system doesn't store diagnosis data, so we're unable to determine this against the prescribed treatment. To ascertain this data, the Trust would need to perform an audit of each individual patient record, which wouldn't be achievable within the s.12 timescale of the Freedom of Information Act 2000.

. Section 12 of the Act makes provision for public authorities to refuse requests for information where the cost of dealing with them would exceed the appropriate limit, We have estimated that it would take more than 18 hours to carry out a manual search to locate, retrieve, and extract all the information you have requested. In this situation the associated cost would therefore exceed the appropriate fee limit of £450 set out under Freedom of Information & Data Protection (Appropriate Limit and Fees) Regulations 2007.

The fee limit specified in regulations for NHS trusts represents the cost of one person spending 2½ working days at a rate of £25 per hour determining whether the Trust holds the information sought and then locating, retrieving and extracting that information.

Our Ref: 134

FEB 2025

Q2. If you do not treat Melanoma patients within your Organisation, which Organisation do you refer your patients to?

We do treat Melanoma Patients within our Trust
