Fraud, Bribery and Corruption Policy & Response Plan

This procedural document supersedes: CORP/FIN 1 (D) v.13 – Fraud, Bribery and Corruption Policy and Response Plan

Did you print this document yourself?

The Trust discourages the retention of hard copies of policies and can only guarantee that the policy on the Trust website is the most up-to-date version. **If, for exceptional reasons, you need to print a policy off, it is only valid for 24 hours.**

To provide a quick reference guide the following flowchart sets out the basic procedures to be followed for reporting any concern of fraud. The narrative elements of the policy should be read in full for a detailed explanation of requirements and reporting guidance.

1 INTRODUCTION

The Trust is committed to deterring and detecting all instances of fraud, bribery and corruption within the Trust and to ensuring that losses are reduced to an absolute minimum therefore freeing up public resources for better patient care. This policy has been produced by the Local Counter Fraud Specialist (LCFS) for Doncaster and Bassetlaw Teaching Hospitals NHS Foundation Trust (DBTH) and is intended as a guide for all employees on counter fraud work within the NHS.

All genuine suspicions of fraud, bribery and corruption can be reported to the LCFS or through the NHS Fraud and Corruption Reporting Line (FCRL) on 0800 028 40 60¹ or online at <https://cfa.nhs.uk/report-fraud>

This policy applies to all employees of DBTH, regardless of position held, be it permanent or temporary as well as consultants, vendors, contractors, and/or any other parties who have a business relationship with DBTH. It will be brought to the attention of all employees on induction and forms part of the Fraud Awareness sessions provided by the LCFS as part of the Statutory and Essential Training (SET) program.

This policy relates to all forms of fraud, bribery and corruption and is intended to provide direction and help to employees. It provides a framework for responding to suspicions of fraud, bribery and corruption, whilst providing advice and information on various aspects of fraud and the implications of an investigation. The overall objectives of this policy are to:

- improve the knowledge and understanding of everyone in DBTH irrespective of their position, about the risk of fraud and corruption within the organisation and its unacceptability;
- assist in promoting a climate of openness and a culture and environment where staff feel able to raise concerns sensibly and responsibly;
- set out DBTH's responsibilities in terms of the deterrence, prevention, detection and investigation of fraud and corruption;
- ensure the appropriate sanctions are considered following an investigation, which may include any or all of the following:
 - criminal prosecution
 - internal disciplinary action
 - civil prosecution
 - professional body disciplinary action

¹ 24-hour hotline operated by Crimestoppers UK

2 PURPOSE

One of the basic principles of public sector organisations is the proper use of public funds. The majority of people who work in the NHS are honest and professional and they find that fraud committed by a minority is wholly unacceptable as it ultimately leads to a reduction in the resources available for patient care.

This policy indicates the determination of the DBTH to confront the problems of fraud, bribery and corruption. The Board is committed to the prevention, deterrence and detection of such incidents within DBTH, to the rigorous investigation of any such cases and where fraud or other criminal acts are proven, to ensure that appropriate action is taken. DBTH will also take all steps necessary to recover any assets lost as a result of fraudulent acts.

For simplicity all such offences are referred to in this paper as 'fraud', except where the context indicates otherwise. The legal understanding of fraud, bribery and corruption is outlined below:

2.1 Fraud

The Fraud Act 2006 no longer makes it necessary to prove that a person has been deceived. The focus is now on the dishonest behaviour of the suspect and their intent to make a gain for themselves or cause a loss to another. The main criminal offences of fraud are now classified as follows:

- Fraud by false representation;
- Fraud by failing to disclose information;
- Fraud by abuse of position;
- Possession of articles for use in fraud;
- Making or supplying articles for use in fraud;
- Participating in fraudulent business;
- Obtaining services dishonestly.

2.2 Bribery and Corruption

The Bribery Act 2010 makes it a criminal offence to give, promise or offer a bribe, and to request or agree to receive or accept a bribe, either at home or abroad. It also includes bribing a foreign official. In addition, the Act introduces a corporate offence, which affects all NHS organisations that fail to prevent bribery by not having adequate preventative procedures in place.

Bribery and corruption can be broadly defined as the offering or acceptance of inducements, gifts, favours, payment or benefit-in-kind which may influence the action of any person. Bribery and corruption does not always result in a loss and the corrupt person may not benefit directly from their deeds; however, they may be unreasonably using their position to give some advantage to another. The Trust has a policy and procedures in place in relation to declarations of interest, gifts, hospitality

and sponsorship² and maintains an Electronic Probity Register. Staff are required to familiarise themselves with the policy and comply with it as a proportionate measure to mitigate bribery. In addition, the Trust has included Bribery in its local Fraud Risk Assessment (FRA) in line with Ministry of Justice guidance and the Chief Executive has issued a Trust wide statement regarding bribery³, which has relevant links to this policy and the policy relating to the required standards of business conduct.

2.3 Information Management and Technology

The Computer Misuse Act 1990 and the Data Protection Act 2018 also cover offences involving the use of information technology equipment and data in the commission of fraudulent acts. Further details are contained in the IM&T Security Policy.

2.4 Summary

The remainder of this document provides guidance and direction to all Trust employees in dealing with the identification and notification of suspected cases of fraud, bribery and corruption (hereafter referred to collectively as fraud). The intention is to ensure that everyone understands how to raise issues of legitimate concern within a structure, which is supportive and robust.

This policy does not cover the law and rules of investigating fraud, which is the responsibility of trained and accredited NHS Counter Fraud Specialists who are required to adhere to relevant legislation and the NHS Counter Fraud Manual.

3 NATIONAL ARRANGEMENTS TO COUNTER FRAUD & CORRUPTION

The policy and response plan should not be seen as stand-alone documents. They need to be regarded as part of the national imperative to counter fraud and corruption within the NHS as a whole. The following paragraphs explain the national arrangements introduced to counter fraud and corruption and briefly describe the remits of various organisations and individuals now established within the national infrastructure.

On the 1st November 2017 a new Special Health Authority was created to tackle fraud, bribery and corruption within the health service in England. This is known as the NHS Counter Fraud Authority (NHSCFA).

The NHSCFA provides a clear focus for both the prevention and investigation of fraud across the health service and will work with NHS England and NHS Improvement to properly uncover fraud and tackle it effectively.

² CORP/FIN 4 – Standards of Business Conduct and Employees Declarations of Interest policy

³ Available on the Trust's public website

Under the NHS standard contract, all organisations providing NHS services must put in place and maintain appropriate anti-crime arrangements. NHS organisations commissioning services from providers also need to ensure that they have appropriate anti-crime arrangements in place. As of January 2021, the previous NHS Provider Standards (Fraud, Bribery and Corruption) were replaced by the Cabinet Office – Government Functional Standard GovS 013: Counter Fraud (Functional Standard), which give a clear framework for what is to be done and ensure that the Trust applies a consistent, effective and professional approach to countering fraud and corruption. Final accountability for local counter fraud work remains the responsibility of the Chief Executive, as the Accountable Officer, and the Director of Finance as the nominated Executive lead for counter fraud measures.

The Trust will take all necessary steps to counter fraud in accordance with this policy, and all other relevant directions, guidance or advice issued by the NHSCFA. In addition, as part of the Functional Standard, the Trust conducts a fraud risk assessment, with all known fraud risks being recorded in line with the Trust's Risk Management strategy.

Risk Owners (ROs) are assigned to each of the fraud risks, which appear on either the Trust's Corporate Risk Register, or Divisional/Directorate Risk Registers depending on the risk score. Fraud risks are kept under constant review by the Director of Corporate Affairs/Company Secretary together with the Trust's LCFS and appropriate ROs, ensuring that new intelligence is considered and highlighted as necessary.

Any member of staff that becomes aware of a loophole in Trust policies or processes which may allow fraud to occur must report this to the Director of Corporate Affairs/Company Secretary or via one of the contacts listed at **Appendix 1**.

The Trust is required to have a professionally trained and accredited LCFS appointed. They have a vital role to play in acting as the "first line of defence" against fraud and corruption. To become an LCFS, a person is required to undertake intensive training and be fully accredited by the Counter Fraud Professional Accreditation Board (CFPAB).

4 NHSCFA STRATEGY

1.1 The NHSCFA Strategy 2023 - 2026 was released in June 2023 and sets out the NHSCFA's approach to fighting fraud and other economic crime affecting the NHS. Their vision and purpose is to work together with NHS counter fraud stakeholders to understand, find and prevent fraud, bribery and corruption in the NHS. Their strategy explains how they intend to use their resources and commitment in the fight against NHS fraud.

In order to achieve their vision, the NHSCFA have identified four fraud-focused pillars which will translate into delivery:

1. They will **understand** how fraud, bribery and corruption affects the NHS.
2. They will ensure the NHS is equipped to take proactive action to **prevent** future losses from occurring.
3. They will be equipped to **respond** to fraud.

4. They can confidently **assure** their key partners, stakeholders and the public that the overall response to fraud across the NHS is robust.

The NHSCFA's Purpose is to protect the NHS from fraud, bribery and corruption and they will achieve this by:

- Being experts and leaders in this field.
- Leading the NHS response to fraud.
- Empowering others.
- Putting the interests of the NHS and its patients first.

The NHSCFA's ambition is that in three years' time they will be:

- Supporting NHS counter fraud professionals in an innovative and agile way to underpin and deliver counter fraud activity within the NHS.
- Using available resources in an innovative and agile way to support and deliver counter fraud activity within the NHS.

The NHSCFA have stated that their annual integrated planning approach will ensure that they are focusing on the right priorities which will have the most impact. Their strategy will remain dynamic and flexible to ensure their objectives adapt and anticipate the changing environment.

DBTH fully supports the NHSCFA's approach to countering fraud, bribery and corruption and this policy is aligned to its latest Strategy document.

5 TRAINING/SUPPORT

To accord with the Functional Standard and the Trust's Counter Fraud Operational Work Plan, which is agreed annually between the LCFS / Director of Finance and approved by the ARC all staff must undergo fraud awareness training as part of the SET program. Dependent upon the training matrix requirement this will be either via the SET booklet, eLearning and/or live fraud awareness sessions provided by the LCFS. Irrespective of the SET requirement the LCFS will provide bespoke sessions for Teams/Departments and routinely seek out opportunities to provide further training throughout the Trust. Regardless of SET requirements staff at any level can (with managerial approval) opt to attend a live fraud awareness session as this provides the most up to date and comprehensive form of fraud awareness training. All training will be recorded centrally on ESR.

This policy will be circulated Trust wide on approval and be available on both the Trust website and extranet site.

Please note: The training requirements of staff will be identified through a learning needs analysis (LNA). Role specific education will be co-ordinated/ delivered by the topic lead. Alternatively, training may be accessed via an approved e-learning platform where available.

6 PUBLIC SERVICE VALUES

The codes of conduct for NHS boards and NHS managers set out the key public service values. They state that high standards of corporate and personal conduct, based on the recognition that patients come first, have been a requirement throughout the NHS since its inception. The core NHS values are:

- **Accountability** – everything done by those who work in the organisation must be able to stand the tests of parliamentary scrutiny, public judgements on propriety and professional codes of conduct.
- **Probity** – there should be an absolute standard of honesty in dealing with the assets of the NHS: integrity should be the hallmark of all personal conduct in decisions affecting patients, staff and suppliers, and in the use of information acquired in the course of NHS duties.
- **Openness** – the organisation's activities should be sufficiently public and transparent to promote confidence in its dealings with patients, staff and the public.

Everyone who works for or on behalf of DBTH should be aware of, and act in accordance with these values.

7 THE BOARD'S POLICY

The Board is absolutely committed to maintaining an honest and open atmosphere within the Trust. It is therefore also committed to the identification and rigorous investigation of any instances of fraud. There is a framework in place which reduces the likelihood of fraud occurring, this includes:

- Standing Orders, Standing Financial Instructions and a scheme of delegation;
- Code of Conduct;
- documented policies and procedures;
- a process of risk assessment;
- implementation of a Counter Fraud Operational Work Plan;
- the requirement for all staff to complete fraud awareness training.

In addition, the Board will ensure that a risk and fraud awareness culture exists within DBTH. This is achieved through the staff awareness training program, all relevant communication methods, monitoring and ensuring compliance with the Functional Standard and by encouraging all staff to report fraud appropriately.

It is also of note that the Trust promotes a climate of open communication, whereby all staff should be able to raise concerns about financial malpractice sensibly and responsibly without fear of victimisation and in a manner consistent with employees' obligations to DBTH. Also the Trust promotes to all staff the protection afforded by the Public Interest and Disclosure Act 1998 – please refer to the Freedom to Speak Up Policy 'Speak up to make a difference' (previously the Whistleblowing Policy) or visit <https://speakup.direct> for free, independent, confidential advice on the speaking up process for the NHS.

The Board's requirement is that anyone having reasonable suspicions of fraud has a duty to report them and that no employee will suffer in any way as a result of reporting reasonably held suspicions, unless extenuating circumstances apply. For these purposes, 'reasonably held suspicions' shall mean any suspicions other than those, which are raised maliciously and found to be groundless.

The Trust adheres to the four principles of generic anti-fraud activity:

1. The application of strong **strategic governance**, to ensure there is effective leadership and a high-level commitment to counter fraud work;
2. A comprehensive process to **inform and involve** all staff in raising awareness of fraud to ensure a robust anti-fraud, bribery & corruption culture exists;
3. Successful implementation of systems to **prevent and deter** fraud, bribery & corruption;
4. Effective methods are deployed to **hold to account** those found to be committing fraud, bribery & corruption.

The Trust's counter fraud provision is provided through a Service Level Agreement (SLA) with a fraud collaborative service hosted by Northern Lincolnshire and Goole NHS Foundation Trust (NLG) that includes United Lincolnshire Hospitals NHS Trust (ULHT), Lincolnshire Partnership NHS Foundation

Trust, Lincolnshire Community Health Services NHS Trust and Hull University Teaching Hospitals NHS Trust. The Counter Fraud Operational Work Plan is negotiated directly between the LCFS/Director of Finance and submitted to the Audit and Risk Committee (ARC) for information.

8 DUTIES AND RESPONSIBILITIES

The Cabinet Office (via NHSCFA) issue the Functional Standard each year, which fulfil the requirements of the NHS Standard Contract and require the Trust to put in place and maintain appropriate anti-crime arrangements. Responsibilities for counter fraud work are set out in the most recent Functional Standard and are summarised in the Trust's SFIs.

The Director of Finance is responsible for monitoring and ensuring compliance with the Functional Standard. This includes providing unrestricted or unhindered access for the LCFS and staff from the NHSCFA to all Trust employees, premises (wholly owned or contracted), records and data, which are relevant to the detection and investigation of NHS fraud, bribery and corruption.

The Chief Executive is ultimately liable to be called to account for specific failures in the Trust's system of internal controls. However, responsibility for the operation and maintenance of controls falls directly to line managers and requires the involvement of all Trust employees. The Trust therefore has a duty to ensure employees who are involved in, or who are managing internal control systems receive adequate training and support in order to carry out their responsibilities. The Director of Finance will monitor and ensure compliance with this policy.

The responsibilities of officers and staff with key roles in the detection, reporting and investigation of fraud are detailed in the following sub-paragraphs.

8.1 Trust Board

The Trust Board fully endorses the requirements of this policy.

8.2 Audit and Risk Committee

The ARC will monitor and ensure the Trust has adequate counter fraud arrangements in place as per the ARC Terms of Reference. The ARC will report to the Trust Board about all relevant counter fraud activity and ensure the counter fraud function has appropriate standing within the Trust.

8.3 Director of Finance

The Director of Finance will monitor and ensure compliance with the Functional Standard, in particular:

- ensure that an LCFS is nominated and accredited for DBTH and notified to the NHSCFA;
- ensure sufficient resources are allocated within the Trust to meet the organisational needs based on fraud risks;
- agree a Counter Fraud Operational Work Plan with the LCFS at the commencement of each financial year and monitor progress against the plan;
- establish and maintain an effective system for dealing with allegations of fraud and corruption;
- promote a culture and reporting mechanism which encourages staff to raise issues of legitimate concern;
- ensure that allegations of fraud and corruption are notified immediately to the LCFS;
- If an investigation is deemed to be appropriate, they will delegate their authority to the LCFS, who has responsibility for leading the investigation, whilst retaining overall responsibility themselves;
- seek financial redress where DBTH suffers loss as a result of fraud or corruption;
- facilitate and co-operate with the NHSCFA quality inspection work, giving prompt access to Trust staff, workplaces and relevant documentation;
- ensure that the LCFS prepares an annual report which is received and considered by the ARC;
- ensure that fraud issues are included as a regular agenda item at all routine ARC meetings;
- comply with all requests by the NHSCFA to participate in national proactive fraud exercises within the stipulated timescales and comply with all relevant guidance issued by NHSCFA.

8.4 LCFS

The LCFS should be allowed to carry out their role in accordance with the requirements of the NHS Counter Fraud Manual and directions issued by the NHSCFA, and in particular:

- report directly to the Director of Finance;
- agree a Counter Fraud Operational Work Plan with the Director of Finance at the commencement of each financial year;
- an annual report on counter fraud work for consideration by the Director of Finance and ARC;
- be entitled to attend any ARC meetings and have a right of access to the Chairman and Chief Executive of DBTH and all ARC members;
- undertake pro-active counter fraud work in accordance with a programme agreed with the Director of Finance;
- investigate cases of suspected fraud in accordance with the latest directions and in accordance with all relevant legislation;
- inform the NHSCFA (via the national case management system) of all cases of suspected fraud investigated by DBTH and refer to the National Investigation Service (NIS) all cases appropriate to them;
- record and progress all referrals via the national case management system;

- where appropriate, provide a report at the conclusion of each investigation for the Director of Finance and relevant addressees;
- participate in a programme of continuing professional development to maintain accreditation and knowledge.

8.5 Internal Audit

Will follow the relevant NHS Internal Auditing Standards and review, appraise and report upon:

- the adequacy and application of financial and other related management controls;
- the extent to which the DBTH assets are accounted for and safeguarded from loss of any kind arising from fraud, waste, extravagance, inefficient administration, poor value for money or other causes;
- notification to the Director of Finance and LCFS of instances of suspected fraud resulting from Internal Audit work or otherwise brought to their attention.

8.6 Director of People & Organisational Development

Will liaise with the LCFS and provide advice to those involved in an investigation regarding employment law, disciplinary and complaints procedures and other procedural matters relating to human resources, and in particular:

- notify the Director of Finance and LCFS immediately of any staff disciplinary cases referred to their department that contain any allegation of fraudulent activity;
- work with the Director of Finance and the LCFS to ensure that the guidance in 'Countering Fraud in the NHS - Applying Appropriate Sanctions Consistently'⁴ is followed and applied at a local level;
- take steps at the recruitment stage to establish, as far as possible, the previous record of potential employees, as well as the veracity of required qualifications and memberships of professional bodies, in terms of their propriety and integrity. This will include all relevant and necessary immigration checks. In this regard, temporary and fixed-term contract employees are treated in the same manner as permanent employees.

⁴ This was a policy statement issued by NHS Protect in April 2013

8.7 Head of Communications and Engagement

Acts as an initial contact point for the LCFS to gain access to the Trust communication systems and services for the promotion of counter fraud work on a National and Local level through:

- Newsletters
- Team Briefs
- DBTH Internet and Extranet sites
- Press releases
- Alerts & Warnings
- Payslip messages
- Prevention material
- Include questions on counter fraud provision in the annual staff survey
- Issue an 'all staff' email to promote and support the fraud awareness survey

8.8 Managers

Managers have a pivotal role to play within the Trust and must inform their staff of the code of conduct enshrined in the Standards of Business Conduct Policy and Declarations of Employee Interests Policy as part of their induction process. Particular attention must be paid to the need for accurate completion of personal records/forms and in particular;

- ensure that all employees for whom they are accountable are made aware of the requirements of the policy;
- assess the types of risk involved in the operations for which they are responsible;
- ensure that adequate control measures are put in place to minimise the risks. This must include clear roles and responsibilities, supervisory checks, staff rotation (particularly in key posts), separation of duties wherever possible so that control of a key function is not invested in one individual, and regular reviews, reconciliations and test checks to ensure that control measures continue to operate effectively;
- ensure that any use of any IT equipment by employees is linked to the performance of their duties within DBTH;
- be aware of the Trust's Fraud, Bribery and Corruption Policy and the rules and guidance covering the control of specific items of expenditure and receipts;
- identify financially sensitive posts;
- ensure that controls are being complied with;
- contribute to the assessment of the risks and controls within their business area, which feeds into the overall statements of accountability and internal control;
- enable staff to complete their requirements for SET (Fraud Awareness) as required by the Trust.

8.9 All Staff

Must comply with Standing Orders, Standing Financial Instructions, all policies and procedures and will;

- If they suspect that there has been fraud or corruption, or have seen any suspicious acts or events, report the matter without delay to the LCFS;
- protect the assets of DBTH including information, goodwill and property;
- act in accordance with the standards laid down by their professional bodies or institutes, where applicable, and have a personal responsibility to ensure that they are familiar with them;
- deal with any information relevant to an investigation of suspected fraud in the strictest confidence. Information must not be disclosed except for the purposes of the investigation and no information relating to the investigation must be disclosed to any person or organisation who might possibly be implicated in the case;
- have a responsibility to comply with all applicable laws and regulations relating to ethical business behaviour, procurement, personal expenses, conflicts of interest, confidentiality and the acceptance of gifts and hospitality. This means, in addition to maintaining the normal standards of personal honesty and integrity, all employees must always:
 - avoid acting in any way that might cause others to allege or suspect them of dishonesty;
 - behave in a way that would not give cause for others to doubt that Trust employees deal fairly and impartially with official matters;
 - be alert to the possibility that others might be attempting to commit fraud
 - have a duty to ensure that public funds are safeguarded, whether or not they are involved with cash or payment systems, receipts or dealing with contractors or suppliers;
 - adhere to the Code of Conduct for NHS Managers (where applicable).

8.10 NHSCFA

Has sole responsibility for authorising and undertaking covert surveillance for fraud cases for all NHS bodies, under the Regulation of Investigatory Powers Act 2000 (RIPA). If the LCFS believes covert surveillance to be appropriate this will be referred to an appropriate person within the NHSCFA for consideration. **No other party within DBTH can carry out covert surveillance and will risk breaking the law if they do so.**

In addition to the foregoing, the NHSCFA will:

- Provide an intelligence-led function to focus on targeting areas of fraud that represent areas of greatest financial loss or fraud risk.
- Provide the case management functions for the receipt, allocation, prosecution and closure of investigation cases.
- Ensure NHS boards take full responsibility for local counter fraud risk, and that this work is monitored and improvements delivered. This will be done through monitoring compliance with the Functional Standard for counter fraud work.
- Provide a Crime Reduction Unit to design fraud prevention solutions and develop guidance for local specialists and NHS organisations on countering fraud.

- Continue to provide the National Investigation Service (NIS), including its financial investigation and forensic computing capability, for the investigation of NHS fraud cases which meet the criteria for transfer to them from local NHS organisations.

8.11 Fraud Champion

In line with national guidance issued by the NHSCFA, all NHS organisations had to nominate a Fraud Champion in February 2020. The Associate Director Strategy, Partnerships & Governance is the nominated Fraud Champion for the Trust. The NHSCFA has stated that their remit will be to:

- Promote awareness of fraud, bribery and corruption within the organisation;
- Understand the threat posed by fraud, bribery and corruption;
- Understand best practice to counter fraud;
- Raising awareness of fraud at a strategic level and complimenting the work that Local Counter Fraud Specialists already do.

9 THE RESPONSE PLAN

The narrative which follows summarises the appropriate action to be taken at each step of the process.

9.1 Reporting Suspicions of Fraud, Bribery and Corruption

Any person with a concern about fraud or corruption must at the earliest opportunity report it to either:

- The LCFS
- NHS Fraud & Corruption Reporting Line (FCRL) on: **0800 028 40 60**
- online at <https://cfa.nhs.uk/report-fraud>
- The Director of Finance

It is understood that in reality staff will ordinarily report their concerns through their own line management. However, due to the danger that untrained staff may unknowingly compromise an investigation and render evidence inadmissible at court or that the extent of others potential involvement may be unknown, this line of reporting is not encouraged by the NHSCFA.

In addition to the foregoing, everyone has the option to raise a concern as set out in the Freedom to Speak Up Policy 'Speak up to make a difference'. This method does where applicable afford staff with protection in accordance with the Public Interest Disclosure Act 1998. All enquiries from staff

will be dealt with confidentially, but fraud allegations will be reported to the Director of Finance and/or LCFS.

If you do not want to disclose your identity, you can raise your concerns anonymously via the:

- NHS FCRL on **0800 028 4060** or via the online portal at:
<https://cfa.nhs.uk/report-fraud>
- NHS Whistleblowing helpline on 08000 724 725 or via the online portal at:
<https://speakup.direct>.

Remember that anonymous reports do not allow you to receive feedback on the outcome of investigations that can lead to the assumption nothing has been done and that it also denies NHS counter fraud specialists the opportunity to illicit further relevant information you may have.

Attached at **Appendix 3** is a desktop guide, which provides a reminder of the key contacts and a checklist of the actions to follow if fraud, bribery and corruption is discovered or suspected. *Managers are encouraged to copy this to staff and to place it on staff notice boards in their department.*

9.2 The Referral Process

Referrals should, wherever possible be made in accordance with Para 9.1 above and only to those listed at Appendix 1. Further details are available on the DBTH extranet by searching for 'fraud'.

Any written referrals should be marked '*Private & Confidential*' and sent to the LCFS at: Counter Fraud Office, D Block, Doncaster Royal Infirmary, Armthorpe Road, Doncaster, DN2 5LT.

Any documentation received by the LCFS in connection with the referral will be retained in accordance with the Criminal Procedure and Investigations Act 1996.

Staff can also contact any executive or non-executive director of DBTH to discuss their concerns if they feel unable, for any reason, to report the matter to the LCFS or Director of Finance.

All referrals to the LCFS will be logged onto the NHSCFA case management system. DBTH is registered with the ICO and can lawfully hold information under the Data Protection Act 2018 relevant to the prevention, investigation and detection of crime, and the apprehension and prosecution of offenders.

Anonymous letters, telephone calls, etc. are occasionally received from individuals who wish to raise matters of concern, but not through official channels. While the suspicions may be erroneous or unsubstantiated, they may also reflect a genuine cause for concern and will always be taken seriously.

The LCFS will make sufficient enquiries to establish whether or not there is any foundation to the suspicion that has been raised. If the allegations are found to be malicious, they will also be considered for further investigation to establish their source.

If following a referral the Director of Finance and LCFS are satisfied that there is an appropriate explanation to allay all concerns, then this will be communicated to the referrer (if known).

If the LCFS is to commence an investigation, agreement will be made with the Director of Finance on what immediate action is necessary to secure relevant evidence and to remove individuals under suspicion from the area under investigation.

9.3 Managing the Investigation

Once the incident has been formally referred to the LCFS, they become responsible for its investigation in accordance with relevant legislation and the requirements of the NHS Counter Fraud Manual. DBTH staff should not take any action in connection with the investigation without seeking the approval of the Director of Finance (who will consult with the LCFS before providing the necessary directions).

Where appropriate the Director of Finance will be responsible for informing the Chief Executive of any investigation by either the LCFS or the NHSCFA. Other relevant Executive Directors and the chairperson of the ARC should also be informed at an appropriate stage.

Dependent upon the type of investigation, it may be useful for the Director of Finance, LCFS and any other appropriate staff (e.g. Human Resources) to meet to discuss the case and agree an outline plan as to how it is to be progressed. The decision on whether such a meeting is appropriate will be made by the Director of Finance in consultation the LCFS.

The investigation will be progressed by the LCFS in a lawful manner and in accordance with relevant guidance issued by the NHSCFA. All necessary action will be taken to appropriately acquire/access all relevant information and evidence deemed pertinent to the investigation. In the conduct of this aspect, the LCFS will assume the authority of the Chief Executive and Director of Finance in the performance of their investigations.

Interviews under caution will only be carried out by the LCFS, if deemed appropriate and will be conducted in accordance with the Police and Criminal Evidence Act 1984 (PACE) normally at a local Police station.

Following the conclusion of any investigation, the LCFS will discuss the outcome with the Director of Finance and decide how to proceed. If it is believed that no fraud has taken place and no further investigational action is necessary, this will be documented along with the reasons in the case file and on the case management system. However, due consideration will be given to any other possible sanctions that are available.

Criminal investigations are primarily used for dealing with any criminal activity. The main purpose is to determine if activity was undertaken with criminal intent. Following such an investigation, it may be necessary to bring this activity to the attention of the criminal courts (Magistrates' and /or Crown Court). Prosecution will only take place on the agreement of the Director of Finance and following the case submission process administered by the NHSCFA directly with the Crown Prosecution Service (CPS).

Once the investigation has been concluded and the appropriate sanctions progressed, then the LCFS will update the Director of Finance, ARC and the NHSCFA (via the case management system).

9.4 Gathering Evidence

The LCFS will take control of any physical evidence as exhibits and record this in accordance with the procedures outlined in the NHS Counter Fraud Manual. All evidence will be stored securely.

Interviews under caution are audio recorded and will only be carried out by the LCFS (or if appropriate, the investigating police officer) in accordance with PACE. Interviewees will normally be contacted in writing to inform them of the date & time and location of the interview, unless the interview is post arrest. These interviews are not to be confused with disciplinary interviews and the types of person who can be present at the request of the interviewee are covered in the PACE Codes of Practice and will be explained by the LCFS. The interviewee will be entitled to legal representation in such interviews, which will be highlighted in pre-interview correspondence. This is free when under arrest at a police station or generally at their own expense when voluntarily attending an interview under caution.

The LCFS will take formal written statements from any person considered necessary in accordance with the Criminal Justice Act 1967 and any other legislation. Staff are expected to assist the LCFS in the investigation and where appropriate provide witness statements for an evidential purpose.

9.5 Sanctions & Redress

Sanctions available within the NHS include criminal and civil prosecution and/or disciplinary action. These are commonly referred to as the 'triple track' approach. In essence, sanctions can be taken individually or in any combination.

The NHS Counter Fraud Manual provides in-depth details of how sanctions can be applied where fraud and corruption is proven and how redress can be sought. If the type of sanction involves a combination of criminal and disciplinary action, then the LCFS (or where appropriate the NHSCFA) should be consulted to ensure that the approach adopted for the disciplinary case does not compromise the success of any potential criminal case. A local protocol is in place between the LCFS and Human Resources to ensure effective liaison is maintained.

In cases of serious fraud and corruption, parallel sanctions will be considered. For example: disciplinary action relating to the status of the employee in the NHS; use of civil law to recover lost funds; and use of criminal law to apply an appropriate criminal penalty upon the individual(s), and/or a possible referral to external bodies – for example, professional bodies – if appropriate.

9.6 Disciplinary Action

The disciplinary procedures of DBTH will be followed if an employee is suspected of being involved in a fraudulent or otherwise illegal act. It should be noted, however, that the duty to follow disciplinary procedures will not override the need for legal action to be taken (e.g. consideration of criminal action). In the event of doubt, legal statute will prevail.

The appropriate senior manager, in conjunction with Human Resources department, will be responsible for initiating any necessary disciplinary action.

9.7 Police Involvement

The Director of Finance, in conjunction with the LCFS (in liaison with NHSCFA if necessary) will decide whether or not a case should be referred to the Police either for investigation or assistance. Any referral to the Police will not prohibit action being taken under the Trust's disciplinary procedures.

9.8 Recovery of Losses Incurred to Fraud

The seeking of financial redress or recovery of losses will always be considered in cases of fraud that are investigated by either the LCFS or NHSCFA where a loss is identified. As a general rule, recovery of the loss caused by the perpetrator(s) will always be sought by the Trust using all available mechanisms. Redress allows resources that are lost to fraud and corruption to be returned to the NHS for use as intended, i.e. for provision of high-quality patient care and services.

The civil recovery route is also available to the Trust if this is cost-effective and desirable for deterrence purposes. This could involve a number of options such as applying through the Small Claims Court and/or recovery through debt collection agencies. Each case will be discussed with the Director of Finance to determine the most appropriate action.

The NHSCFA can also apply to the courts to make a restraining order or confiscation order under the Proceeds of Crime Act 2002 (POCA). This means that a person's money or property is taken away from them if it is believed that the person benefited from the crime. It could also include restraining assets during the course of the investigation. Depending on the extent of the loss and the proceedings in the case; it may be suitable for the recovery of losses to be considered under POCA.

Where the matter involves staff, recovery from salary or the withholding of payments due will be considered as appropriate (also see the Over and Underpayments Policy). Additionally, mechanisms

exist to seek recovery of losses from funds contained within the NHS pension scheme, where an employee has left employment.

In some cases (taking into consideration all the facts of a case), it may be that DBTH, under guidance from the LCFS and with the approval of the Director of Finance, decides that no further recovery action is taken.

9.9 Suppliers/Contractors

Where payments are made to suppliers/contractors then, in appropriate circumstances, deductions against future payments will be made to reclaim inappropriately claimed monies. In other instances civil legal proceedings will be initiated. The Trust will also consider the removal of the supplier/contractor from the approved lists. In the case of any breach of contract action, this will follow existing procedures for each of the supplier/contractor groups.

9.10 Disciplinary Issues

DBTH Staff. Suspected incidents of fraud or corruption will be investigated and the member of staff may be suspended in accordance with DBTH's disciplinary procedure. An investigation or criminal prosecution being progressed by the LCFS, NHSCFA or the Police will not prevent the Trust from completing its own investigation and taking any action deemed appropriate under disciplinary procedures. Disciplinary action will always be considered alongside criminal investigations, **but will not be commenced without consultation with the LCFS/NHSCFA staff involved.** A Copy of the Trust's disciplinary procedure can be found in the policies section on the staff extranet.

Negligence Contributable to Fraud. Any employee found to be responsible for the loss of assets through negligence may be subject to disciplinary action in accordance with the Trust disciplinary procedures.

Obstruction of an NHS Counter Fraud Specialist. Any member of staff found to be deliberately obstructive in the conduct of a formal investigation referred to the LCFS or NHSCFA may be committing a criminal offence and subject to prosecution, equally such actions may be dealt with via the Trust disciplinary procedures.

Involvement of the Local Security Management Specialist (LSMS). The LSMS is the nominated lead to deal with incidents involving all aspects of security, violence, aggression and theft of property at the Trust. The LSMS will be notified of all incidents relevant to their role and a local protocol is in place between the LCFS and LSMS to facilitate this.

10 FUTURE POLICY UPDATES

The Trust's Board accepts that amendments to the Appendices of this policy will be required in future, in order to ensure that references made within the body of the policy and appendices are correct. The Board delegate's authority to the Director of Finance to agree future updates to the Appendices.

These amendments can include the following but this should not be considered an exhaustive list;

- Names, designations and contact details of officers;
- References to NHS agencies;
- Form references.

11 MONITORING COMPLIANCE WITH THE PROCEDURAL DOCUMENT

What is being Monitored	Who will carry out the Monitoring	How often	How Reviewed/ Where Reported to
Compliance with the Policy	Local Counter Fraud Specialist	At least annually	Compliance will be reviewed and reported to the ARC.
Compliance with the Policy	The NHSCFA	Annually via the Counter Fraud Functional Standard Return (CFFSR) and on Quality Inspection by the NHSCFA	Compliance will be reviewed and reported to the Chief Executive, Director of Finance and the ARC.

12 EQUALITY IMPACT ASSESSMENT

The Trust aims to design and implement services, policies and measures that meet the diverse needs of our service, population and workforce, ensuring that none are disadvantaged over others. Our objectives and responsibilities relating to equality and diversity are outlined within our equality schemes. When considering the needs and assessing the impact of a procedural document any discriminatory factors must be identified.

An Equality Impact Assessment (EIA) has been conducted on this procedural document in line with the principles of the Equality Analysis Policy (CORP/EMP 27) and the Equality Diversity and Inclusion Policy (CORP/EMP 59).

The purpose of the EIA is to minimise and if possible remove any disproportionate impact on employees on the grounds of race, sex, disability, age, sexual orientation or religious belief. No detriment was identified. (See Appendix 4).

APPENDIX 2 – FREQUENTLY ASKED QUESTIONS

FAQS

Q: Who pays for NHS fraud?

We all do!

Q: Do I Have to Report Fraud, Bribery or Corruption?

Yes - DBTH has comprehensive arrangements for countering fraud and corruption and all staff have a duty to protect NHS resources.

Q: What is Fraud?

Fraud can be described as the intent to dishonestly obtain a financial gain from someone or to cause someone a loss. It is important that staff understand that fraud is distinct from theft which is more of an opportunist crime and that fraud may arise almost anywhere within the Trust and be perpetrated by anyone including; staff, contractors, patients and visitors.

Q: What is Corruption?

Corruption is generally considered a lack of integrity or honesty (especially susceptibility to bribery) and may involve a position of trust for dishonest gain.

Q: What sort of things might be considered fraudulent?

It is impossible to list every potential fraudulent act. Here are some typical examples:

- Falsely claiming to be sick or working elsewhere whilst off sick from the Trust
- Falsifying time records e.g. claiming pay for time not worked
- Falsifying flexi-time sheets
- Undertaking private work during NHS time
- Unauthorised private use of NHS equipment with intent to avoid a charge or payment
- Submitting altered/bogus invoices or claims for payment
- Making false claims for subsistence & expenses
- Supplying false qualifications or references on a job application form
- Failing to declare criminal convictions to gain employment
- Falsifying any official records
- Offering or receiving bribes or inducements
- Selling of NHS/Trust information

Q: What will happen if I report a suspicion of fraud?

All allegations of fraud within the NHS will be professionally assessed and if necessary, investigated by a trained and accredited NHS Counter Fraud Specialist. If a criminal investigation is necessary within

DBTH, the LCFS will normally undertake this and the investigation will be conducted in accordance with criminal investigation procedures. It is often **not** necessary to involve the Police.

Where fraud is apparent, a triple-track approach to applying sanctions will normally be taken. This will include relevant criminal sanctions via the court system, civil recovery proceedings and disciplinary action via internal Trust procedures. Where appropriate, details of the investigation will normally be passed to appropriate professional bodies (e.g. GMC, NMC and HCPC) who will then conduct their own investigation and apply their own sanctions.

Therefore, where concerns are raised they will be fully investigated, feedback will be provided to the person who has highlighted the problem (unless referred anonymously), and appropriate action taken to prevent recurrence. Thus NHS patients, staff and property will receive the protection that they deserve.

Q: What if it is not fraud and turns out to be theft?

The responsibility for investigating incidents of theft rests with the Trust's accredited LSMS. The LSMS is also responsible for managing the response to security matters, violence and aggression against staff.

The function of the LCFS and LSMS are not to be confused and remain distinctly separate.

Q: Will my personal data be used for the prevention and detection of fraud?

The Trust proactively searches for fraud occurrences within its systems and data. Such work may include checks on areas of high risk such as payroll and expense claims, payments, sickness absence and procurement.

Also from time to time, the Trust will participate in internal and external data matching exercises involving the electronic comparison of data from different systems (for example payroll and payments data supplied as part of the National Fraud Initiative (NFI)) to identify inconsistencies, which may indicate fraud. The Trust is committed to reducing the potential for fraud to occur and these exercises are designed to help detect fraudulent and erroneous payments.

In accordance with the Data Protection Act and Human Rights legislation, all staff should be aware that their personal data might be used by the Trust for the prevention and detection of crime. Any queries regarding this work should be referred to the LCFS.

Q: Where can I find further information?

The following sources of information are recommended:

- *Direct from the LCFS.* The LCFS actively promotes fraud awareness at DBTH. If you would like more information please contact the LCFS directly.
- *On the Staff Extranet.* For those with access to the extranet, detailed guidance and information on counter fraud measures at DBTH can be found by searching for '[fraud](#)'. Information is also available via the Counter Fraud Plus team's own intranet home page accessible from an NHS computer via this [link](#). Additionally, from time to time alerts will appear on the staff extranet concerning fraud issues that are necessary for staff to know.
- *On the Internet.* Wider details on countering NHS fraud can also be found on the internet by visiting www.cfa.nhs.uk

Q: What is the Board's View?

The Trust Board is absolutely committed to maintaining an honest, open and well-intentioned atmosphere within the organisation, so as best to fulfil the objectives of the Trust and the wider NHS. It is therefore also committed to the elimination of any fraud and corruption within the Trust, and to the rigorous and professional investigation of any such cases. The Trust is also committed to ensuring that where fraud and corruption is proven that wrong doers are appropriately dealt with through criminal, disciplinary and civil sanctions.

The Board supports the role of NHSCFA and will ensure that relevant activity is taken in accordance with their instructions. This includes the appointment of a LCFS who proactively works to detect and deter fraud and investigates suspected fraud as directed by the NHSCFA.

The Board's requires that anyone having a reasonable suspicion of fraud occurring has a duty to report it. The Trust fully adheres to the provisions of the Public Interest Disclosure Act 1998 which protects employees who make disclosures about a range of subjects from recriminations. Staff should be assured that there will be no recriminations against individuals who report reasonably held suspicions. The Board will however take a serious view of allegations against staff that are malicious in nature, and anyone making such an allegation will themselves be subject to disciplinary action.

Victimising or deterring staff from reporting concerns is a serious disciplinary matter. If you believe that you have good reason to suspect a colleague, supplier or other person of a fraud or an offence involving DBTH or a serious infringement of Trust or NHS rules then you should report it to an appropriate person as outlined in Appendix 1 of this policy.

Q: What if I don't want to Openly Report my Suspicion?

If you do not want to speak directly to the LCFS or Director of Finance or anyone else identified in this Policy, then you have the option of contacting the NHS Fraud & Corruption Reporting line on **0800 028 40 60** or via <https://cfa.nhs.uk/report-fraud> This can be done anonymously and all referrals are handled confidentially by trained staff and concerns raised will be professionally investigated.

Staff should be aware that if they refer their suspicions anonymously it will not be possible to seek clarification from them regarding the information that they have supplied. Nor will the LCFS be able to provide any feedback regarding the outcome of the investigation, and it may therefore appear to the anonymous referrer that no action has been taken by the Trust when this will have not been the case.

***Remember, it's your money and your NHS –
Don't let the fraudster get away with it.***

APPENDIX 3 – DESKTOP COUNTER FRAUD GUIDE

DESKTOP COUNTER FRAUD GUIDE

Doncaster and Bassetlaw
Teaching Hospitals
NHS Foundation Trust

FRAUD is the dishonest intent to obtain a financial gain from, or cause a financial loss to a person or party through false representation, failing to disclose information or abuse of position.

CORRUPTION is the deliberate use of bribery or payment of benefit-in-kind to influence an individual to use their position in an unreasonable way to help gain advantage for another.

✓ Do

- **Note your concerns**
Record details such as your concerns, names, dates, times, details of conversations and possible witnesses. Time, date and sign your notes.
- **Retain evidence**
Retain any evidence that may be destroyed, or make a note and advise your LCFS.
- **Report your suspicion**
Delays may lead to further financial loss.

If you suspect that fraud against the NHS has taken place, you must report it immediately, by either:

- contacting the Director of Finance
- directly contacting the Local Counter Fraud Specialist
- contacting the NHS Fraud and Corruption Reporting Line:
0800 028 40 60 (operated by Crimestoppers UK)
- online at: www.cfa.nhs.uk/reportfraud

✗ Do Not

- **Confront the suspect or convey concerns to anyone other than those authorised, as listed below**
Never attempt to question a suspect yourself; this could alert a fraudster or accuse an innocent person.
- **Try to investigate or contact the police directly**
Never attempt to gather evidence yourself unless it is about to be destroyed; gathering evidence must take into account legal procedures in order for it to be useful. Your LCFS can conduct an investigation in accordance with legislation.
- **Be afraid of raising your concerns**
The Public Interest Disclosure Act 1998 protects employees who have reasonable concerns. You will not suffer discrimination or victimisation by following the correct procedures.
- **Do nothing!**

Remember, it's your money and your NHS.
Don't let the fraudster get away with it!

Your Local Counter Fraud Specialist is **Rachel Hodges**, who can be contacted by telephoning: **01302 642999**
or by email at rachel.hodges2@nhs.net

If you would like further information about local counter fraud work, visit the Trust's intranet site and search for the fraud pages.
For more information about the work of the NHS Counter Fraud Authority go to www.cfa.nhs.uk

APPENDIX 4 - EQUALITY IMPACT ASSESSMENT PART 1 INITIAL SCREENING

Service/Function/Policy/Project/ Strategy	Division	Assessor (s)	New or Existing Service or Policy?	Date of Assessment
CORP/FIN 1 D v 13 – Fraud, Bribery and Corruption Policy & Response Plan	Finance Directorate	Mark Bishop	Existing	19/01/2024
1) Who is responsible for this policy? Finance Directorate				
2) Describe the purpose of the service / function / policy / project/ strategy? Sets out the criteria for dealing with suspicions of fraud, bribery and corruption and details how to make a report.				
3) Are there any associated objectives To ensure compliance with the NHS Anti-Fraud Manual, criminal/civil legislation and disciplinary procedures.				
4) What factors contribute or detract from achieving intended outcomes? – None				
5) Does the policy have an impact in terms of age, race, disability, gender, gender reassignment, sexual orientation, marriage/civil partnership, maternity/pregnancy and religion/belief? Details: [see Equality Impact Assessment Guidance] - No				
<ul style="list-style-type: none"> If yes, please describe current or planned activities to address the impact [e.g. Monitoring, consultation] – N/A 				
6) Is there any scope for new measures which would promote equality? [any actions to be taken] – N/A				
7) Are any of the following groups adversely affected by the policy?				
Protected Characteristics	Affected?	Impact		
a) Age	No			
b) Disability	No			
c) Gender	No			
d) Gender Reassignment	No			
e) Marriage/Civil Partnership	No			
f) Maternity/Pregnancy	No			
g) Race	No			
h) Religion/Belief	No			
i) Sexual Orientation	No			
8) Provide the Equality Rating of the service / function / policy / project / strategy – tick (✓) outcome box				
Outcome 1 ✓	Outcome 2	Outcome 3	Outcome 4	
<i>*If you have rated the policy as having an outcome of 2, 3 or 4, it is necessary to carry out a detailed assessment and complete a Detailed Equality Analysis form – see CORP/EMP 27.</i>				
Date for next review:		March 2026		
Checked by:		Jon Sargeant	Date: 12 January 2024
