

Freedom of Information Act Request

I am writing to request information under the Freedom of Information Act 2000.

Q1. Does your trust treat Polycythaemia Vera (ICD10 code D 45)? If no, please provide the name of the trust that you refer Polycythaemia Vera patients to? **YES**

Q2. How many patients were initiated on Ruxolitinib (Jakavi) in the past 6 months for the following conditions? (Patients are classed as initiated if they have not received any of the above treatments in the previous 6 months)

- Myelofibrosis (ICD10 code D47.4)
- Polycythaemia Vera (ICD10 code D45)
- Graft vs Host Disease (GvHD) (ICD10 code T86.0 or D89.8) (SNOMED Code: SCTID: 234646005)

DBTH holds the information on the subject you have requested. However, I advise you that we will not be able to answer your request without exceeding the appropriate limit. This is because our pharmacy system doesn't store diagnosis data, so we're unable to determine this against the prescribed treatment. To ascertain this data, the Trust would need to perform an audit of each individual patient record, which wouldn't be achievable within the s.12 timescale of the Freedom of Information Act 2000.

. Section 12 of the Act makes provision for public authorities to refuse requests for information where the cost of dealing with them would exceed the appropriate limit, We have estimated that it would take more than 18 hours to carry out a manual search to locate, retrieve, and extract all the information you have requested. In this situation the associated cost would therefore exceed the appropriate fee limit of £450 set out under Freedom of Information & Data Protection (Appropriate Limit and Fees) Regulations 2007.

The fee limit specified in regulations for NHS trusts represents the cost of one person spending 2½ working days at a rate of £25 per hour determining whether the Trust holds the information sought and then locating, retrieving and extracting that information.

Q3. How many patients were initiated with the following regimens for any condition in the past 6 months? (Patients are classed as initiated if they have not received any of the above treatments in the previous 6 months)

- **Momelotinib -4**
- **Fedratinib -1**

Q4. How many patients were treated in the past 6 months for Polycythaemia Vera (ICD10 code D45) with?

- Hydroxycarbamide
- Interferon therapy

DBTH holds the information on the subject you have requested. However, I advise you that we will not be able to answer your request without exceeding the appropriate limit. This is because our pharmacy system doesn't store diagnosis data, so we're unable to determine this against the prescribed treatment. To ascertain this data, the Trust would need to perform an audit of each individual patient record, which wouldn't be achievable within the s.12 timescale of the Freedom of Information Act 2000.

. Section 12 of the Act makes provision for public authorities to refuse requests for information where the cost of dealing with them would exceed the appropriate limit, We have estimated that it would take more than 18 hours to carry out a manual search to locate, retrieve, and extract all the information you have requested. In this situation the associated cost would therefore exceed the appropriate fee limit of £450 set out under Freedom of Information & Data Protection (Appropriate Limit and Fees) Regulations 2007.

The fee limit specified in regulations for NHS trusts represents the cost of one person spending 2½ working days at a rate of £25 per hour determining whether the Trust holds the information sought and then locating, retrieving and extracting that information.

Q5. Of the myelofibrosis (ICD10 D47.4) patients receiving the following treatments in the past 6 months, please indicate how many were receiving their first systemic therapy

(First systemic therapy = patient has not previously received any drug treatment for myelofibrosis, including hydroxycarbamide, interferon therapy, JAK inhibitors, or other systemic therapy. Excludes a watch and wait approach.)

Treatment	First systemic therapy	Received prior systemic therapy
Ruxolitinib (Jakavi)		
Fedratinib (Inrebic)		
Momelotinib (Omjjara)		

DBTH holds the information on the subject you have requested. However, I advise you that we will not be able to answer your request without exceeding the appropriate limit. This is because our pharmacy system doesn't store diagnosis data, so we're unable to determine this against the prescribed treatment. To ascertain this data, the Trust would need to perform an audit of each individual patient record, which wouldn't be achievable within the s.12 timescale of the Freedom of Information Act 2000.
